We feel very sad about losing Colin as our cousin. Of course, we will always think of the good times that were enjoyed and spent together with our families. As a tribute to Colin, we have decided to reflect on his life as a source of inspiration motivating us to approach our challenges and our work with passion, pride, and a relentless discipline to be great the way Colin approached his challenges and his work. We encourage you to also pay tribute to Colin as you approach your challenges and your work. Colin would be proud !!

Colin was an excellent physician and a dream to work with. With a smile always on his face he would brighten the room as soon as he walked in. He was well respected and very much loved by the people he worked with. He was a man who you looked up to and hoped that you could be at least half as good as him. He was kind and passionate. He will be greatly missed by all. I can not even imagine the loss of a child or what your family is going through, but I can say I hope my son grows up to be the type of man Colin was. He was one of God workers and now he has moved to a greater task. He will be greatly missed at Earl K Long.

Colin was an amazing person. I am a fellow resident, one year below him, and I worked with him during my first two months as an intern. He was patient, walked me through cases, and was always available when I needed help. We all know how smart and able he was as a surgeon. What is even more impressive, was how down to earth and caring he was as a friend and colleague. We all loved him, he will be missed dearly.

Colin was a tremendous physician and an even better friend. I had the privilege of meeting Colin in my first year of medical school and we remained close friends thereafter. He was a wonderfully gifted individual who excelled not only in academics and sports but also in his ability to help others. On more than one occasion I have been approached by medical students telling me how much they enjoyed working and learning from Dr. Goodier. This is only a small testament to the type of individual Colin was. My thoughts and prayers are for his family, friends, and patients who all lost him too soon. You will be greatly missed my friend, and the halls of EKL will not be the same without you. Thanks for all the memories.

I first met Colin when he was my medical student at LSU while I was completing my internal medicine residency. Colin was one of the most brilliant medical students I ever had the honor of working with. Not only was he wise beyond his years, but his personality and empathy for his patients demanded respect. Our friendship matured throughout the remainder of his medical school years and during his years of residency. Colin had a zest for life that was unmatched. All of us who were fortunate enough to have witnessed his life and work are better physicians and people for having had the opportunity. I speak for the rest of Colin's friends when I say that we will miss him dearly, and the brief time we had Colin in our lives will never be forgotten.

This is a tremendous loss for his friends, his family and the medical profession. The unrealized potential and promise for Colin both as a physician and as a person are truly tragic.
